WHAT IS THE BREAKDOWN OF THE TRAINING PROGRAM?

You will receive training in the following areas:

**ENGINE REPAIR**
- Automatic Trans & Transaxles
- Manual Drive Train & Axles
- Suspension & Steering

**BRAKES**

**ELECTRICAL/ELECTRONIC SYSTEMS**

**HEATING & AIR CONDITIONING**

**ENGINE PERFORMANCE**

While you are completing classes in these areas, you will receive the Honda Factory Training that is appropriate for each area. During each class, the Honda modules that you complete are recorded electronically and on a Honda course map. Then when you receive your Butte College Auto Tech and Honda PACT certificate of achievement, you will be accredited with all the Honda modules that you have completed. The dealership that hires you also gets credit for your Honda Factory Training. This is a tremendous cost savings to the Honda dealership.

Butte College does not discriminate on the basis of age, race, color, national origin, sex or disability in its programs offerings, admission criteria, accessibility, admission and employment criteria. Contacts on issues regarding Title IX and Section 504 may be made to Allen Renville, Vice President of Student Services, Butte College, 3536 Butte Campus Drive, Oroville, CA 95965, (530) 895-2239.

This publication is available in alternate media (e.g., Braille, e-text, large print, etc.). Request for alternate media can be made by contacting Disabled Student Programs and Services at (530) 895-2455 [voice], 895-2308 [TTY], or E-mail at dsps@butte.edu.

Students who enroll in Butte College's comprehensive Automotive Technology program have the option of choosing the American Honda PACT program which leads to certification by American Honda Corporation. After a counseling session with the PACT coordinator, we can get you started down the path of factory Honda training. It will take you about four semesters to complete the program (sixteen months) at a total cost for books and tuition of about $3,200. If you need housing while attending school, Craig Hall in Chico has room and board facilities.

**HOW DO I GET STARTED?**

Now, you can receive Honda Factory Training as you complete the Butte College Automotive Technology Program. American Honda Corporation has trained and certified the staff at Butte College Auto Tech to be able to deliver the most current Individualized Skills Training Modules (I.S.T.) These modules are delivered in the same way that the Honda professional technician receives them and consist of self-study and “hands on” skill modules. In addition, Honda constantly provides our program with new Honda vehicles to train you on. Along with this, Honda has provided all of the necessary special tools, online reference, shop manuals, and training components. Everything needed to receive intensive basic automotive training plus over 50% of all the Honda Factory Technician Training is ready for you at Butte College.

**WHAT IS HONDA INDIVIDUALIZED SKILLS TRAINING (IST)?**

IST is a study system that was developed by American Honda that allows the student to study at their own pace. It consists of Honda self-study modules that will be accessed on the Honda Online University. Honda requires their current technicians to maintain a status of 100% of all current self-study topics within a reasonable time. As you complete the Honda Program at Butte College Auto Tech, you are required to achieve the 100% level by your graduation. The IST Skills modules are hands-on curriculum that you will complete as you work in the lab setting. These modules give you a better understanding of the information that you gained in the self-study courses.

**WHAT IF I ALREADY HAVE A HONDA OR ACURA DEALERSHIP THAT WANTS TO HELP ME THROUGH THIS PROGRAM?**

Your dealership will have a special code, which only allows them to track your training progress on our web site. This keeps your training record and progress confidential. You will also be able to work for your dealership full time for ten weeks in the summer and for four weeks during Christmas break.
