## Nurturing Parenting Program-Skills For Families

Nurturing is the ability to care for and foster growth in us and others. We all need to be nurtured - to receive understanding, respect, recognition, warmth, praise, security, limits and appropriate expectations. Parents who learn "Nurturing Parenting" realize that raising children doesn't have to be a series of confrontations where parents have to "pick their battles. The Nurturing Parenting Program's Goals are based on teaching competency areas. A competency area is a set of parental attitudes and behaviors that plays a very significant role in childrearing. A major goal of the Nurturing Program is to help parents improve their nurturing in each of these five areas: 1: Appropriate Expectations 2: Empathy 3: Non-Violent Discipline 4: Appropriate Family Roles 5: Power and Independence. The Nurturing Parenting Programs are developed from a strong philosophical basis that supports the growth and development of parents and youth as caring people who treat themselves, other, and the environment with respect and dignity.
