**Background**

The District’s Board of Trustees is currently elected under a hybrid “at-large” election system, where trustees who reside in trustee-areas are elected by voters of the entire District. Trustees are elected in even-numbered years and serve staggered, four-year terms. On April 14, 2021, the Board adopted Resolution Number 799 declaring its intent to transition from at-large hybrid elections to by-trustee area Board elections, where each Board member must reside within the designated trustee area boundary and is elected only by the voters in that trustee area.

**Status**

On August 11, 2021, the Board considered information on the process and potential criteria for drawing the trustee area boundary maps, and the Board held a statutorily required hearing to receive input from the community on the trustee-area map creation process, pursuant to Elections Code section 10010(a)(1).

The District’s demographers, National Demographics Corporation, will present information on the process and criteria for drawing the trustee-area boundary maps. Following the presentation, the Board will hold the second of two statutorily required hearings to received input from the community on the trustee-area map creation process, pursuant to Elections Code section 10010(a)(1).

**Background**

In March of 2020, the Butte-Glenn Community College District Board of Trustees declared the COVID-19 pandemic a public health emergency and directed the Superintendent/President to take any and all actions necessary to continue District operations and preserve the health and safety of the District's students and employees. Since that time, safe, effective, widely available, and free vaccines have been developed and distributed throughout the United States and the State of California.

The State of California recently announced that all state employees and workers in health care and high-risk congregate settings will be required to show proof of full vaccination or be subject to strict COVID-19 mitigation protocols, including testing at least once per week. Both the State of California and the California Community Colleges Chancellor's Office have encouraged local governments and community college districts to adopt similar vaccination requirements. Similarly, the federal government will require all federal employees to be vaccinated against COVID-19 or face repeated testing mandates in response to the spread of the Delta Variant.

**Status**

A draft COVID-19 Vaccination Board Policy was presented to the Board of Trustees on August 11, 2021 regular meeting as an information item. Suggestions for change were incorporated into the final version, which is now presented for consideration.

This item is subject to potential bargaining regarding effects and impacts on working conditions with labor organizations regarding affected bargaining unit members. The board is requested to delegate authority to staff to discuss effects and impacts on working conditions with affected labor organizations, and as a result of those discussions, to develop a timeline and details for implementation all to be described in an Administrative Procedure. Implementation will occur after those steps have been accomplished.

**Recommendation**

It is recommended that the Board of Trustees adopt BP 2900: COVID-19 Vaccinations as proposed.

The Butte-Glenn Community College District (District) is committed to protecting the health and wellbeing of students, faculty, staff, administrators, and the communities it serves, as well as maintaining higher education access and attainment for our students. As the District works toward the safe resumption of increased on campus learning, working and other activities, it embraces a comprehensive strategy designed to reduce the likelihood of transmission of the COVID-19 virus. The novel coronavirus and the disease it causes, COVID-19, is a global pandemic and has resulted in widespread severe illness and death worldwide, in the United States, and in California.

In furtherance of this commitment to providing a safe and healthy environment, the district requires that all employees who access on-site campus/district programs in person or who participate in district operated or controlled off-site district/college services in person comply with this policy. Employees are expected to be fully vaccinated against COVID-19. Those who do not receive a COVID-19 vaccination will be subject to testing and must comply with other safety measures.

The Superintendent/President shall establish administrative procedures to implement this policy.
