---

Whenever an initial collective bargaining proposal is received from an exclusive representative of District employees or whenever the District's own negotiator presents an initial proposal, the following actions must be taken at public meetings of the Board of Trustees:

- The exclusive representative of District employees, the District, or the exclusive representative and the District must present the initial collective bargaining proposal in writing to the Board at a public meeting.
- The public shall have an opportunity to respond to the initial proposal at a subsequent public Board meeting. The opportunity for public response shall appear on the Board's regular agenda. Public response shall be taken in accordance with the Board's policies regarding speakers.
- After the public has an opportunity to respond to the District's initial proposal, the Board shall, at the same meeting or a subsequent meeting, adopt the initial proposal. The adoption shall be indicated as a separate action item on the Board agenda. There shall be no amendment of the initial proposal unless the public is again afforded a reasonable opportunity to respond to the proposed amendment at a public meeting.

If new subjects of meeting and negotiating arise after the presentation of initial proposals, the following procedure shall be followed:

- All new subjects of meeting and negotiation, whether proposed by the exclusive representative, the District, or by both parties, shall be posted by the District in the same public place as it posts its agendas within twenty-four (24) hours after their presentation in negotiations.

When a request to reopen a collective bargaining agreement, if covered in the agreement, is received from an exclusive representative, is made by the District, or by both parties, the public notice procedure outlined in this procedure shall be followed.
