The District's mission directs resource allocation, innovation, and continuous quality improvement through ongoing systematic planning and evaluation of programs and services.

The District's mission and goals are the foundation for financial planning. Financial information is disseminated to support effective planning and decision making and provide opportunities for stakeholders to participate in the development of plans and budgets.

The superintendent/president will ensure that the District has and implements a broad-based comprehensive, systematic, and integrated system of planning that involves appropriate segments of the college community and is supported by institutional effectiveness research. The planning system will include plans required by law, including, but not limited to:

- Long Range Educational or Academic Plan, which will be updated periodically as deemed necessary by the Governing Board
- Facilities Plan
- Equal Employment Opportunity Plan
- Student Equity and Achievement Plan
- Transfer Center Plan
- EOPS Plan

The planning system will include other plans, including, but not limited to:

- Strategic Plan
- Technology Plan
- Outcomes Assessment Plan
- Foundation Fundraising Plan

Long range planning for other programs is accomplished through a combination of program review and unit planning.

The superintendent/president will submit to the Board those plans for which Board approval is required by Title 5.
