The District grants the degrees of Associate in Arts and Associate in Science to those students who have completed the subject requirements for graduation and who have maintained a 2.0 grade average in subjects attempted. Students must also complete the general education residency and competency requirements set forth in Title 5 regulations.

Students may be awarded a Certificate of Achievement upon successful completion of a minimum of 16 or more semester units of degree-applicable course work designed as a pattern of learning experiences designed to develop certain capabilities that may be oriented either to career or general education.

The Vice President of Student Learning shall collaborate with the Academic Senate to establish procedures to determine degree and certificate requirements that include appropriate involvement of the college Curriculum Committee. The procedures shall ensure that graduation requirements are published in the college catalog and included in other resources that are convenient for students.
