The Butte-Glenn Community College District (District) is committed to protecting the health and wellbeing of students, faculty, staff, administrators, and the communities it serves, as well as maintaining higher education access and attainment for our students. As the District works toward the safe resumption of increased on campus learning, working and other activities, it embraces a comprehensive strategy designed to reduce the likelihood of transmission of the COVID-19 virus. The novel coronavirus and the disease it causes, COVID-19, is a global pandemic and has resulted in widespread severe illness and death worldwide, in the United States, and in California.

In furtherance of this commitment to providing a safe and healthy environment, the district requires that all students who access on-site campus/district programs in person or who participate in district operated or controlled off-site district/college services in person comply with this policy. Students are encouraged to be fully vaccinated against COVID-19 and are required to follow testing and safety measures established by the administration based on federal, state, and local public health guidance.

The Superintendent/President shall establish administrative procedures to implement this policy.
