 - A. still need to -
 - add GELO/ILO note that they are listed below
 - add “Select up to three that apply” (with limit of 3) for those that are boxes
 - Limit multi-select to 3
 - B. department spreadsheet
 - remove # student assessed
 - add GELO column back
 - don't use legend with numbers for “how did you assess”, etc. Keep the text as is
 - C. Other points to discuss
 - Which questions should be included in the document sent to chairs?
 - Should we limit text in free responses? These makes the output unwieldy.
